

MEDICAL CASE MANAGEMENT FOR REFUGEES

Are you a refugee who has been in the U.S. for less than 2 years?

We can help you:

- Understand what COVID-19/coronavirus is
- Schedule medical appointments at a health center that meets your needs
- Apply for a free or low-cost health insurance plan
- Connect you with language interpretation services
- Accompany you to your medical appointments
- Assist you in understanding and picking up medications
- Arrange transportation to and from medical appointments
- Schedule appointments for your referrals to specialists
- Accompany you to your mental/behavioral health appointments
- Provide you with health education through screenings, assessments, individual counseling, workshops and much more!

You do NOT need to be a Heartland Health Centers patient

The medical case management program is free of charge for participants

Interpretation services available in 200+ languages

If you or a refugee you know needs help with these services, contact:

Salma Ahmedin, MPH
